Lengkung hijau menyerupai kaki melambangkan kelangsungan (kontinuitas) kelembagaan IKIP menjadi Universitas Negeri Malang. Bintang warna kuning melambangkan Pancasila sebagai falsafah bangsa dan negara. Simbolik UM berwarna kuning yang sekaligus mengesankan empat garis vertikal, melambangkan empat orientasi nilai, yaitu nilai keilmuan yang universal, nilai kebangsaan, nilai kemanusiaan, dan nilai kebudayaan dalam mewujudkan visi, misi, dan fungsi UM. Kuncup bunga berwarna kuning, terdiri atas tiga bagian dalam pelukan kalpataru, bagian kuncup yang mengarah ke atas melambangkan pendidikan generasi, bagian kuncup sebelah kanan dan kiri, melambangkan dua program studi, yaitu kependidikan dan nonkependidikan, ketiga bagian kuncup itu melambangkan Tri Dharma Perguruan Tinggi.

The symbol of UM is set on a circle which signifies the university's focus on anticipating global development. The tree of life (the Kalpataru) is depicted in green, symbolizing the awareness of the importance of environment in the application of science and technology. The yellow star is the symbol of Pancasila, the basic philosophy of the nation and the state. The letters of UM are designed in four tangential lines, to symbolize the four-value orientation, that is, the value of universal knowledge, the value of nationhood, the value of humanity, and the value of culture, in order to realize the vision, mission, and function of UM. The yellow flower bud is designed in three parts under the protection of the Kalpataru tree, where the central upright part symbolizes the education of generations. The left and right petals symbolize the dual study programs: educational and non-educational, and the three petals of the flower bud as a whole represent the Three Principles of Higher Education Institutions (Tri Dharma Perguruan Tinggi).

Sekilas Tentang Malang

Malang At A Glance

Malang merupakan salah satu kota terindah di Jawa Timur yang berada di dataran tinggi. Malang terletak tepat di antara dua gugusan gunung, yakni Gunung Arjuno dan Gunung Panderman di sebelah barat, dan Gunung Semeru dan Gunung Bromo di sebelah timur. Karena posisinya berada di ketinggian, udara kota Malang terasa sejuk dan nyaman.

Sejuknya udara Malang bukanlah satu-satunya yang dapat kami banggakan. Di samping pemandangan alamnya yang indah, Malang juga dikelilingi oleh berbagai situs peninggalan sejarah, antara lain Candi Singosari dan Candi Sumberawan yang berada di desa Singosari di sebelah utara Malang, serta Candi Jago dan Candi Kidal di kawasan Tumpang, di sebelah timur kota Malang.

Nuansa "kolonial" yang menyelimuti kota Malang sangat terasa. Pemerintah Belanda pernah memiliki markas militer yang cukup besar di Malang pada tahun 1949. Kini Malang telah berkembang menjadi salah satu kota terbesar di provinsi Jawa Timur, dan diperkirakan total penduduknya berjumlah 820.857 jiwa.

Cara termudah untuk menuju ke Malang adalah dengan naik pesawat dari Jakarta sekitar 1 jam atau dengan naik kereta api atau bus dari Surabaya, dengan waktu tempuh sekitar 2 jam. Jika Anda bepergian dari Malang menuju Kediri melalui kawasan Batu, Anda akan disugahi panorama yang luar biasa indah di sepanjang perjalanan. Jalan raya menuju Kediri berkelok-kelok membelah hamparan pemandangan yang menakjubkan: jajaran gunung, persawahan yang membentang luas, sumber air panas, lembah luas, dan hutan lebat.

Selama bertahun-tahun Malang dikenal sebagai salah satu pusat kebudayaan dan pusat pendidikan terpenting di Jawa Timur. Kota ini memiliki sejumlah lembaga pendidikan tinggi. Salah satu perguruan tinggi terkemuka di Malang adalah UM yang terlahir 57 tahun yang lalu.

Malang is one of the most spectacular highland cities in East Java. The city is situated amid four mountains Mt. Arjuno and Mt. Panderman in the west and Mt. Semeru and Mt. Bromo in the east. The high altitude lends the city cool and comforting climate throughout the year.

Climatic blessing is not the only thing that the city boasts. In addition to the beautiful landscape, the city is besieged by numerous sites of ancient temples such as Singosari and Sumberawan temples located near the village of Singosari at the city's north boundary and Jago and Kidal temples located in the village of Tumpang that lies to the east of the city.

Traces of colonial atmosphere are quite evident and as a matter of fact permeate in every corner of the city. The Dutch government maintained a military base there until 1949. Today Malang has flourished and grown into one of the major cities in the province of East Java with estimated total population of 820.857.

The easiest way of getting to Malang is by air (one-hour direct flight from Jakarta) or by train or bus from Surabaya, which takes about two hours. Travellers on their way from Malang to Kediri via the city of Batu are regaled with spectacular scenery. The main road that leads to Kediri meanders gently through mountains, lush farmlands, hot springs, and sprawling valleys and unmolested forests.

For quite a long time, Malang has enjoyed the reputation as one of the educational centers in East Java. The city is home to several universities and UM, born 57 years ago, stands out among the best.

Sejarah Singkat UM

Brief History of UM

Tanggal 18 Oktober 1954, Prof. Mr. Muhammad Yamin meresmikan dibukanya Perguruan Tinggi Pendidikan Guru (PTPG Malang). Itulah tonggak sejarah yang mengawali kelahiran dan tumbuh-kembangnya lembaga yang sekarang dikenal dengan nama Universitas Negeri Malang (UM), yang merupakan salah satu perguruan tinggi tertua di tanah air. Pada saat itu, PTPG Malang baru memiliki 5 jurusan, 127 mahasiswa, dan 37 dosen. Prof. Sutan Adam Bachtiar ditunjuk sebagai rektor pertama PTPG Malang.

Didirikannya Universitas Airlangga pada tanggal 10 November 1954, berdampak pada status PTPG Malang. Sejak itu PTPG bergabung dengan Unair dan berubah menjadi salah satu dari empat fakultas yang dimiliki Unair. Empat tahun sesudah itu, PTPG berubah status lagi menjadi Fakultas Keguruan dan Ilmu Pendidikan Unair. Pada tahun 1963, FKIP Unair berubah menjadi sebuah lembaga independen yang disebut dengan Institut Keguruan dan Ilmu Pendidikan Malang, atau lebih dikenal dengan sebutan IKIP Malang.

Pada tahun 1999 IKIP Malang mendapatkan perluasan mandat dan berubah menjadi Universitas Negeri Malang (UM). Saat ini UM memiliki tujuh fakultas, yaitu Fakultas Ilmu Pendidikan, Fakultas Sastra, Fakultas Matematika dan Ilmu Pengetahuan Alam, Fakultas Ekonomi, Fakultas Teknik, Fakultas Ilmu Keolahragaan, Fakultas Ilmu Sosial, dan Program Pascasarjana.

On 18 October 1954, Prof. Mr. Muhammad Yamin, the former Minister of Education and Culture, officially inaugurated Perguruan Tinggi Pendidikan Guru (PTPG Malang), or Teacher Education College. The historical event marked the genesis of the present-day State University of Malang (UM), one of the oldest universities in Indonesia. The nascent institution started with 5 departments that housed 127 students and 37 lecturers. Prof. Sutan Adam Bachtiar was appointed the first rector of PTPG Malang.

The founding of another university in East Java, Unair (Universitas Airlangga) on November 10, 1954, brought about some important consequences to the status of PTPG Malang. Since then, PTPG Malang merged with Unair and became one of the university's four faculties. It was not until four years later that the status change was officially declared, whereby, PTPG Malang became Faculty of Teacher Training and Education of Airlangga University (Fakultas Keguruan dan Ilmu Pendidikan, FKIP-Unair). In 1963, FKIP Unair was converted into an independent institution, namely Institute of Teacher Training and Education (Institut Keguruan dan Ilmu Pendidikan Malang, or better known as IKIP Malang).

The year 1999 marked yet another important change to the institution's status, where IKIP Malang obtained a greater mandate and was transformed into Malang State University (Universitas Negeri Malang). Presently, UM has seven faculties: Faculty of Education, Faculty of Letters, Faculty of Mathematics and Science, Faculty of Economics, Faculty of Engineering, Faculty of Sport Science, Faculty of Social Science, and Graduate Programs.
